**Dieter Gaier's Contributions
to Numerical Conformal Mapping**

CMFT 3 No.1 (2003), 1–53. [ISSN 1617-9447]

Abstract. We present an outline of some of Dieter Gaier's very substantial contributions to numerical conformal mapping and indicate his enormous influence on the modern development of the subject.

Keywords. Numerical conformal mapping, orthonormalization methods, integral equation methods, conformal modules.

2000 MSC. 30C30, 65E05.
