**Exceptional Sets for Certain Differential Polynomials
of Entire Functions**

CMFT 5 No.1 (2005), 153–158. [ISSN 1617-9447]

Abstract. We improve a result of Anderson, Baker and Clunie on exceptional sets for the differential polynomial $f'f$, when f is a transcendental entire function.

Keywords. Exceptional sets, Picard sets, Nevanlinna theory.

2000 MSC. 30D35.
