Estimates for Singular Integral Operators

CMFT 8 No.1 (2008), 35–46. [ISSN 1617-9447]

Abstract. Estimates are obtained for $\int_0^\infty K(r, t)\phi(t) dt$, where $K(r, t)$ may have a singularity at $t = -r$.

Keywords. Singular integral operator, subharmonic function.

2000 MSC. 47G10, 30D15.
