On the Growth of the Dirichlet Integral for Some Function Spaces

CMFT 8 No.2 (2008), 475–482. [ISSN 1617-9447]

Abstract. The growth of the Dirichlet integral for functions belonging to Q_p but not to the Dirichlet space is considered. These results are shown to be sharp in a certain sense.

Keywords. Q_p , BMOA, the Bloch space.
