**Bohr and Rogosinski Abscissas  
for Ordinary Dirichlet Series**

CMFT 9 No.1 (2009), 65–74. [ISSN 1617-9447]

**Abstract.** We prove that the abscissas of Bohr and Rogosinski for ordinary Dirichlet series, mapping the right half-plane into the bounded convex domain  $G \subset \mathbb{C}$  are independent of the domain  $G$ . Furthermore, we obtain new estimates about these abscissas.

**Keywords.** Isometric Bohr abscissa, Rogosinski abscissa, Dirichlet series.
